SPECIFICATIONS

- Rated voltage: 5V DC, 2A, micro USB
- Current : 500ma max at 5V
- Power consumption : 2.5W max at 5V
- 1 GHz single-core CPU
- Operating temp: -10 to +45 degree C
- Operating humidity : 5% to 95% relative, non-condensing

GENERAL INFORMATION

Sign and Slot	Feature Description
Reset	Reset the device
IN	Micro-USB, 5V power input

Enclosure	Description
Dimensions	24.5mm X 66mm x 85mm
Housing material	ABS
Weight	78g

SYSTEM COMPATIBILITY

- Compatible with any Spintly Smart Access Device

SECURITY

- Fully encrypted communication between Spintly Gateway and Spintly Devices.
- Fully encrypted communication between Spintly Gateway to Spintly Cloud.
